

NCLUG / NCDOT

OpenX

Rollout Week Event

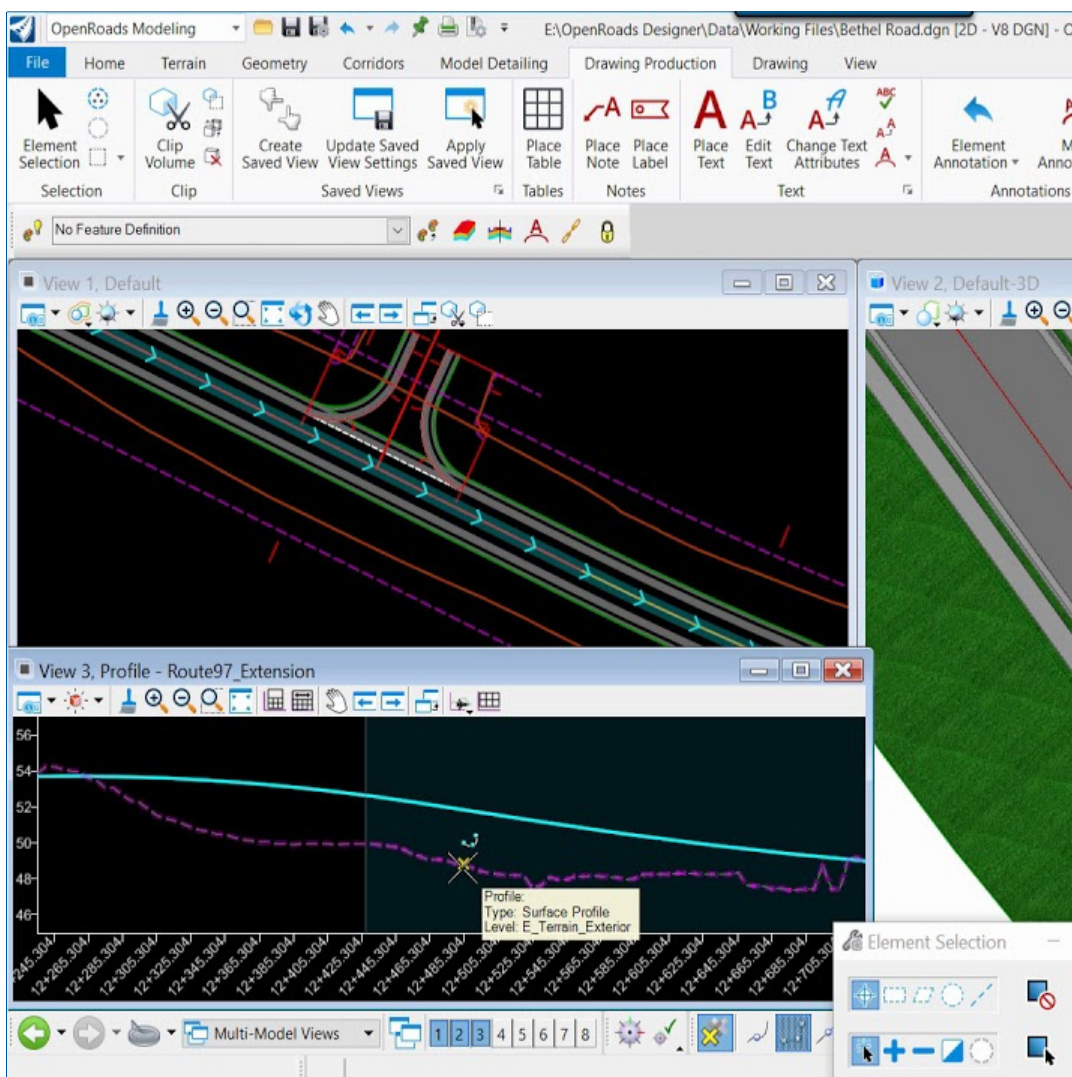

July 12-16, 2021

[With multiple events happening each day]

Bentley OpenX

(Roads, Bridge, Flow & Rail)

OpenX refers to all the different Bentley Connect Edition brands. Come hear from different NCDOT Units about where they stand on generating production design and plans. During our rollout week event many NCDOT units will address the readiness and design workflow challenges necessary to make the conversion over to the OpenX platforms.

Week's Line Up of Events:
